

5.56x45 mm AR-M11F
NSN: 1005-50-001-1857

7.62x39 mm AR-M11F
NSN: 1005-50-001-1856

The 5.56x45 mm and 7.62x39 mm **AR-M11F** models are highly effective, milled receiver, select fire weapons with a left-side folding stock. The barrel length is shortened to 12.5" overall makes these rifles perfect for urban areas where you need the mix of both a shorter barrel length, but still have the capability to reach out a considerable distance. This is achieved by combining the front sight with the full-length gas block and adding the extremely effective and original 4-piece cone flash hider.

Main Features:

- Milled receiver, made from hot die forged solid blank followed by milling operations.
- Chrome lined, cold hammer forged barrel providing an extremely durable and long lasting barrel that also allows for use of corrosive and surplus ammunition if needed
- Circle 10 magazines – the best, strongest, and most reliable AK magazine available
- Lower hand guard, Upper hand guard, Pistol Grip and Butt, made from glass fiber reinforced polycapromamide.
- Left-side folding polymer stock with trap door for cleaning kit.
- Rail for attaching optic mounts

Extras (Paid Separately):

- Tritium Self-illuminated Night Sight (3-dot sight system);
- 7.62x39 models - black polymer magazines for 10 and 40 cartridges;
- 5.56x45 models – 20 round magazines optional
- Magazine packages (multiple mags per rifle – can be customized);
- Front Sight Elevation tool 1:10;
- set for magazines coupling;
- Muzzle device (compensator, flash hider, muzzle brake);
- blank fire attachment (BFA);
- rail mount for optics (model specific SM-13/SM-22);
- Railed handguards for accessory attachments (forward grip, flashlights, QD sling, etc.);
- QD Package – allows use of QD ports and attachments for modern QD slings;
- Repair Kit packages available

The Assault Rifle design allows the attachment of 40x46 mm UBGL-M6, UBGL-M8 and 40 mm UBGL-1 ARSENAL Underbarrel Grenade Launchers and firing with them.
