(16.3" barrel)

7.62x39 mm AR-M1F41

NSN: 1005-50-001-1860

The 5.56x45 mm and 7.62x39 mm **AR-M1F41** models are highly effective, milled receiver, select fire weapon with a right-side folding tubular stock and ambidextrous safety. The stock folding to the right permits any rail mounted optic to remain on the weapon when folded, not an option for left side folding models. The ambidextrous safety also allows manipulation of the safety even when the stock is in the folded position.

Main Features:

- Milled receiver, made from hot die forged solid blank followed by milling operations.
- Chrome lined, cold hammer forged barrel providing an extremely durable and long lasting barrel that also allows for use of corrosive and surplus ammunition if needed
- Circle 10 magazines – the best, strongest, and most reliable AK magazine available
- Lower hand guard, Upper hand guard, and Pistol grip, made from glass fiber reinforced polycapromamide.
- Rail on the receiver for attaching optic mounts
- Classic slant cut compensator
- Metal right-side folding stock.
- Additional left fire mode Selector Lever, for rapid fire mode changing and for convenience of left-handed shooters.

Extras (Paid Separately):

- 7.62x39 models - black polymer magazines for 10 and 40 cartridges;
- Magazine packages (multiple mags per rifle – can be customized);
- 5.56x45 models – 20 round magazines optional;
- Front Sight Elevation tool 1:10;
- set for magazines coupling;
- Muzzle device (compensator, flash hider, muzzle brake);
- blank fire attachment (BFA);
- rail mount for optics (model specific SM-13/SM-22);
- Railed handguards for accessory attachments (forward grip, flashlights, QD sling, etc.);
