

5.56x45 mm AR-M25F
NSN: 1005-50-001-7760

7.62x39 mm AR-M25F
NSN: 1005-50-001-4215

The 5.56x45 mm and 7.62x39 mm **AR-M52F** models are highly effective, milled receiver, select fire weapons with a right-side folding stock and an AR-M5F picatinny rail for optics mounting. The barrel length is shortened to 12.5" overall and makes these rifles perfect for urban areas where you need the mix of both a shorter barrel length, but still have the capability to reach out a considerable distance. Combining the compact platform for storage, transportation, and firing from cramped spaces with the right-side folding stock, this package now allows attachment of optics to increase target identification from distance without having to take them when the stock folds. Excellent option for vehicle crews who need a full-length rifle option with optics, but with compact storage until needed.

Main Features:

- Milled receiver made from hot die forged solid blank followed by milling operations.
- Chrome lined, cold hammer forged barrel providing an extremely durable and long lasting barrel that also allows for use of corrosive and surplus ammunition if needed
- Circle 10 magazines – the best, strongest, and most reliable AK magazine available
- Lower hand guard, Upper hand guard, and Pistol grip, made from glass fiber reinforced polycapromide.
- Lower hand guard, equipped with Rails MIL-STD 1913 (Picatinny) on three sides (at the 3, 6 and 9 o'clock positions).
- AR-M5F rail system is secured to the receiver allowing for the most stable platform available to attach optics
- Metal right-side folding stock.
- Additional left fire mode Selector Lever, for rapid fire mode changing and for convenience of left-handed shooters.

Extras (Paid Separately):

- Tritium Self-illuminated Night Sight (3-dot sight system);
- 7.62x39 models - black polymer magazines for 10 and 40 cartridges;
- 5.56x45 models – 20 round magazines optional
- Magazine packages (multiple mags per rifle – can be customized);
- Front Sight Elevation tool 1:10;
- set for magazines coupling;
- Muzzle device (compensator, flash hider, muzzle brake);
- blank fire attachment (BFA);
- QD Package – allows use of QD ports and attachments for modern QD slings;
- Repair Kit packages available.

The Assault Rifle design allows the attachment of 40x46mm UBGL-M6, UBGL-M8 and 40 mm UBGL-1 ARSENAL Underbarrel Grenade Launchers and firing with them.

5.56x45 & 7.62x39 mm ARSENAL Assault Rifles AR-M52F w/ right-side folding stock (12.5" barrel)
