

Triple Magazine Pouch AK47/M16/M4

This Triple Magazine Pouch will work with magazines for the AK-47 (and variants), M16, and M4 rifles. The hook and loop closure offers a secure method of retaining the magazine until use and includes a reinforced pull tab to make opening the pouch easier. Each pouch has an elastic nylon band that allows the pouch to expand for different brands/types of magazines being stored in them. The MOLLE web system allows the pouches to stay extremely secure to the items they are mounted on.
